Financial Assistance at Wings of Hope:
In keeping with our mission and core values, Wings of Hope assists people and their health needs regardless of their ability to pay. We are committed to working with our patients through any financial issues, including finding ways to make medical care more affordable. Wings of Hope offers financial assistance to eligible patients of Hummingbird Hospice who do not have the financial ability to pay for their medical needs. If you are having trouble paying for all or some of your health care, we encourage you to talk with a Wings of Hope Financial Counselor or someone in our business office about how we can help you.

What Is Covered? For critical care and medically necessary services at Hummingbird Hospice, we provide financial assistance to eligible patients on a sliding fee scale basis, with discounts ranging from 25% to 100 % based on ability to pay. Financial assistance for other services or at our partnered care facilities is governed by the policies of the Wings of Hope entity providing the care.

How to Apply? Any patient of Hummingbird Hospice may apply to receive financial assistance. A patient seeking financial assistance must provide supporting documentation specified in the application, unless Wings of Hope indicates otherwise. The application form may be obtained at the office, by telephone, or from the website noted below.

Other Assistance:
Coverage assistance: If you are without health insurance, you may be eligible for other government and community programs. We can help you discover whether these programs (including Medicaid and Veterans Affairs benefits) can help cover your medical bills. We also can help you apply for these programs.

Uninsured Discounts: Wings of Hope offers a discount for patients who may not have health insurance coverage. Please contact us about our discount program.

Contact Us for Financial Assistance Help or Applications
For more information about getting help with fees related to medical services and equipment, please contact our office. We can give you any forms you need and can help you apply for assistance. Patients are strongly encouraged to ask for financial help before receiving care, if possible.

If you have questions or would like to receive a financial assistance application form, please contact below:
